

# ENTERPRISE TRADE MISSION TO THE USA 2026

9 – 12 MARCH 2026

## ABOUT GROW LONDON GLOBAL

Grow London Global is a free 12-month programme for London-based tech companies that want to expand internationally - the successor to the Mayor's International Business Programme, which has helped 1,300 London scaleups including Monzo, Revolut, Checkout.com, Brompton Bicycles, Mr & Mrs Smith and Bloom & Wild reach their global expansion goals.

The programme offers expert advice, workshops, events, networking opportunities with partners, corporates, investors, peers as well as unrivalled opportunities to make valuable contacts into your target market on trade missions across the world.

For more information, visit: [grow.london/global](https://grow.london/global)

## .alteam®

Scale faster with Alteam: your partner for expert-led, AI-matched product delivery. Our Talent OS connects you with elite fractional CTOs, CPOs, and remote teams—ready to build, launch, and grow. We specialise in deploying harmonised teams that have a balanced mix of experience, complementary skills, and meet your budget.

Yoann Demont  
CEO

## CENTURO GLOBAL

Centuro Global helps global companies move talent compliantly. Our AI-powered platform combines immigration, and business-travel compliance in one place, reducing risk and saving time. We work with enterprise mobility teams to automate visa assessments, manage cross-border travel, and ensure every international move stays compliant and cost-efficient.

Zain Ali  
CEO

## Emu Analytics

Our real-time situational awareness / digital twin software for live transport operations is already used by the likes of British Airways (UK), Qantas (AUS), London Gatwick - and other European + Asian airlines and airports anticipated imminently. It is already saving BA over \$20m in delay minute reduction at London Heathrow (CEO stated)

Richard Vilton  
Co-Founder & CEO

## GRAYMATICS

Graymatics is a leading cognitive multimedia processing company leveraging the best and deepest of AI technologies for extracting deep insights and enabling compelling solutions around installed CCTV base. We were founded in Silicon Valley, and currently headquartered in Singapore, with various active markets globally. Our principal industry verticals include Smart Cities & Transportation, Smart Buildings & Factories and Smart Bank & Retail.

Abhijit Shanbhag  
President & CEO

## inploi

inploi helps large employers transform candidate experience and hiring efficiency without replacing their ATS. Their modular, ATS-agnostic platform sits on top of existing systems, improving application journeys and delivering full-funnel performance data, driving measurable ROI in high-volume, complex hiring environments.

Matthew de la Hey  
CEO

## instant impact

Great talent isn't just for household names. We help mid-sized businesses innovate, grow faster, and hire top talent through our unique mix of solutions from modular outsourcing, to cutting-edge tech stacks, to innovative advisory solutions. We're here to make your hiring simple.

Felix Mitchell  
Co-CEO

## kleene

Kleene delivers enterprise-grade data intelligence without the enterprise overhead. Our agentic orchestration layer unifies data from 600+ sources into a single decision-ready pipeline — a one-stop solution that removes the need for costly in-house data engineering and delivers faster reporting, sharper efficiency, and measurable ROI in weeks, not months.

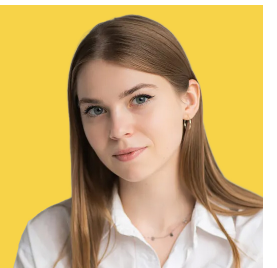

Paul Coggins  
CEO

## legal nodes

Legal Nodes is a legal and technology company working with in-house legal and compliance teams. We deliver legal expert advisory, managed legal services, and AI-driven legal process automation, helping teams run core legal operations as AI-native functions. The result is faster execution, consistent decision-making, and legal operations that scale without adding headcount.

Margaryta Sivakova  
Co-Founder & CEO

# ENTERPRISE TRADE MISSION TO THE USA 2026

9 – 12 MARCH 2026

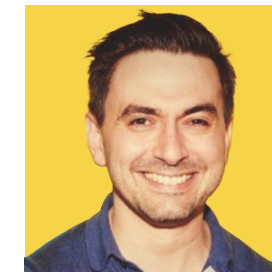

MyCena eliminates credential-based breaches by removing passwords from employees and automating access with encrypted, segmented credentials. Ideal for regulated industries, MyCena delivers unphishable access, simplifies compliance, and boosts operational security without changing existing infrastructure.

**Julia O'Toole**  
Co-CEO

ProFinda's mission is to transform resource management, creating a gold standard process to improve both operational efficiency and the employee experience. One that is quick, transparent and with complete confidence that the best person for any role or task has been found. ProFinda pioneered bringing AI, Skills Intelligence and Employee Engagement into the resource management solution landscape to drive both operational excellence as well as employee experience in tandem.

**Seb Haire**  
CRO

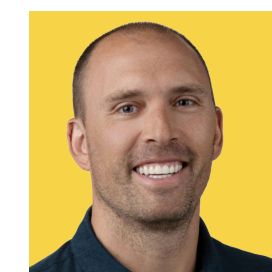

umsub is an enterprise-grade identity verification and compliance platform enabling organizations to securely onboard users and manage regulatory risk. Utilizing AI-driven KYC, KYB, and fraud prevention solutions, Sumsb helps enterprises streamline operations, ensure compliance, and protect against digital fraud, empowering global businesses to operate with confidence and efficiency.

**Kat Cloud**  
Head of Government Relations

Synthesia is an AI video platform for business. It enables you to turn plain text into engaging videos, in minutes. Companies like Xerox, Heineken, and Zoom use it to create employee training and development, customer enablement, internal communications, and marketing videos — increasing engagement by up to 30% and reducing video production costs by up to 90%.

**Matt Cotter**  
Strategic Account Director

UBIO builds agentic automation that connects to any website without an API— powering large-scale data extraction, price intelligence and end-to-end transactions for travel, job boards, and commerce. We help organisations like Google scale hotel data, promo-code validation and high-volume scraping with accuracy, compliance and real-time reliability.

**Bradley Channer**  
CFO

Veroxos helps enterprises reduce telecom, mobile, and cloud costs through an AI-driven managed service. We unify cost visibility across AWS, Microsoft 365, and network providers, delivering measurable savings and operational efficiency. U.S. organisations can benefit from our proven expertise in FinOps, automation, and technology cost optimisation.

**Joel Barnett**  
CEO

Aurastride (trading as VSourz) is a composable backend platform that powers modern digital experiences. From headless CMS and workflows to AI tools and out of the box APIs, it's your launchpad for building fast, integrating smart, and scaling without replatforming. Plug in. Roll out. Evolve faster.

**Tarang Patel**  
CEO
