# Welcome

**We are thrilled to announce that 15 of London's most innovative enterprise-tech scale-ups will be participating in our Grow London Global international expansion programme and visiting Atlanta and Dallas.**

Our trade mission programme will connect our companies with key corporates, investors, and stakeholders in Dallas and Atlanta's ecosystems. We encourage all relevant parties to get involved in the activities we are running.

The South is home to some of the US's most vibrant business and tech scenes, with both cities hosting a considerable number of Fortune 500 companies. Dallas is rapidly becoming one of the fastest-growing tech hubs in the country, and Atlanta has a reputation for growing notable unicorns such as Calendly and FullStory. London & Partners acknowledges the growing clout of the South in economic and population growth and tech innovation, and is excited to build stronger connections between London and the US South.

London is a beacon of technological innovation, with a robust ecosystem and culture of enterprise-tech startups, from AI to EdTech. The companies representing London in this mission are enterprise-ready and have a proven track record of performance and innovation.

We recognise that tech trade and investment are crucial drivers of innovation and economic growth for our communities and represent a win-win for everyone involved. This mission aims to bridge two leading business ecosystems, bringing together the best of our respective strengths and opportunities.

We hope to have a productive Grow London Global trade mission.

**Laura Citron**  
CEO, London & Partners

# Overview

# About London & Partners

**We are the business and destination agency for London. Our mission is to create economic growth that is sustainable, resilient and inclusive. We have helped create nearly 84,000 jobs and £3.1bn in economic growth since we were founded in 2011.**

**What we do:**

- High Growth Sectors: We support businesses in high-growth sectors to scale
- Small Businesses: providing expert support and resources to London's small and micro businesses to help them thrive.
- Visitor Economy: We attract visitors and events and develop London as a destination
- London Brand: We grow London's global reputation to support economic growth
- Partnerships & Ventures: We create partnerships and profit-making ventures to scale our impact

# Grow London Global

Grow London Global is a free 12-month programme for London-based companies that want to expand internationally.

Grow London Global is the successor to the Mayor's International Business Programme, which has helped 1,300 London scaleups including Monzo, Brompton Bicycles, Mr & Mrs Smith and Bloom & Wild reach their global expansion goals.

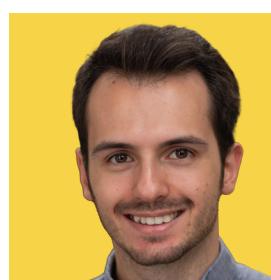

The programme offers expert advice, workshops, events, networking opportunities with partners, corporates, investors, peers as well as unrivalled opportunities to make valuable contacts into your target market on trade missions across the world.
